BROCHURE

## Invitation

On behalf of the Australasian Society for Breast Disease, it gives me great pleasure to invite you to our Fourth Scientific Meeting.

This Scientific Meeting aims to advance your knowledge in the areas of the latest techniques of investigation and management of benign breast diseases and to offer state-of-the-art information about early detection and treatment of breast cancer. The Meeting will also cover the latest information on issues related to breast cancer management, emphasising multidisciplinary aspects. In addition, the Meeting provides an important forum for professional and social interaction between delegates from the various disciplines.

The noted international speakers and local expert faculty will together provide plenty of interest and we expect all disciplines to be strongly represented at this event.

Margaret Pooley  
President

## About the Australasian Society for Breast Disease

The Australasian Society for Breast Disease was constituted in 1997. Its primary goal is to promote multidisciplinary understanding and practice in the prevention, detection, diagnosis and management of breast disease and research into this area of medicine. The Australasian Society for Breast Disease has an eight-member Executive plus several co-opted members, providing for broad multidisciplinary representation. The Society thanks current members for their support and involvement and welcomes new members from all disciplines involved in the area of breast disease.

## Gold Coast

Gold Coast offers a wide range of attractions for visitors of all ages. Its 42 kilometres of beautiful, golden beaches are washed by the sparkling waters of the Pacific Ocean, basking in 300 days of sunshine a year. Situated only an hour's drive from Brisbane, this international resort city provides activities for everyone, from fine waterfront dining, cruises and dazzling nightlife to golf on some of Australia's finest courses, adventure sports and theme parks.

## The Venue

The Surfers Paradise Marriott Resort is a fine example of five-star elegance and guests will be delighted by its facilities, as well as the panoramic ocean and hinterland views. It boasts over 2.5 acres of blue lagoons, man-made coral reef, private sandy beaches and tropical gardens. The Marriott is located near the top end of Gold Coast, about an hour from the Brisbane airport and about 30 minutes from the Coolangatta airport by car.

## Sponsors

The Australasian Society for Breast Disease is grateful to the Meeting sponsors for their support.

### PLATINUM SPONSOR

AstraZeneca is one of the largest and most successful pharmaceutical companies. We are committed to creating value by delivering new and innovative medicines which meet the needs of patients and healthcare professionals throughout the world.

We excel in proving healthcare solutions across seven major therapeutic areas including: oncology, central nervous system, gastrointestinal, infection, cardiovascular, pain control and anaesthesia and respiratory medicines. *PharmaBusiness International Magazine* (January 2001) rated AstraZeneca's global pharmaceutical 'pipelines' as the strongest in the entire industry.

In Australia, AstraZeneca has invested hundreds of millions of dollars into local research and manufacturing and plans to invest more. At any given time, AstraZeneca is participating in more than 42 clinical trials in over 245 centres around the country. In 2001, more than \$11.3 million was locally invested in Australian clinical research projects.

AstraZeneca continues its tradition of research excellence and innovation in

Oncology that led to the development of its current anti-cancer therapies including 'Arimidex', 'Cosudex', 'Novadex', 'Tomudex' and 'Zoladex' as well as a range of novel targeted products such as anti-proliferatives, anti-angiogenics, vascular targeting and anti-invasive agents. AstraZeneca is also harnessing rational drug design technologies to develop new compounds that offer advantages over current cytotoxic and hormonal treatment options. The company has over 20 difference anti-cancer projects in research and development.

We also have a history of working closely with major teaching hospitals and universities around the country. In 1993 a partnership was formed with Griffith University, which has resulted in a leading edge natural product discovery unit involving a total investment by AstraZeneca of more than \$100 million. We are also currently involved in two Co-operative Research Centres, one for Asthma and one for Chronic Inflammatory Disease.

Everyday, more than 200,000 Australian's will benefit from our medicines.
